KEUCO EDITION 11 shows a clear edge

Straight contours of EDITION 11 inspire in black matte look

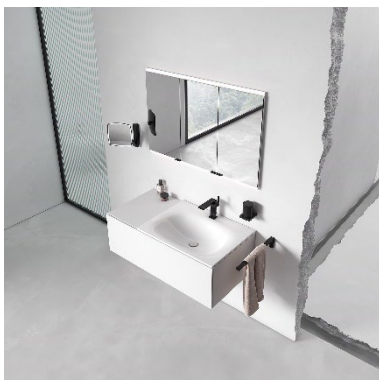

The linear, understated design of EDITION 11 fittings and accessories is available in a strong, bold black matte finish. The deep black powder coating emphasizes the clear lines of the series. A symbiosis of form and colour that couldn't possibly be a better match. EDITION 11 in black matt offers impressive features for a strong accentuated bathroom design. A combination of the EDITION 11 fittings, bathroom furniture and washbasins, creates bathrooms with an architectural flair - straightforward and modern.

Contrasting design at the washbasin

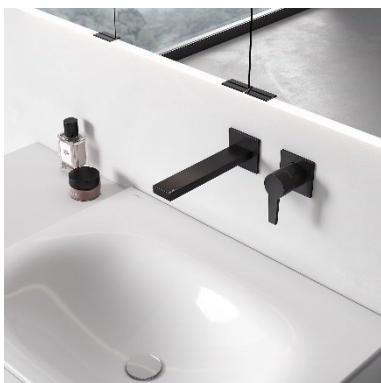

The star at the washbasin is the fitting. There is no doubt when it comes to the EDITION 11 fitting. It makes an impressive design statement with its strong shapes at the brightly designed washbasin. Despite their strength, the clear edges of the products still promise visual lightness. Different spout heights of the single-lever basin mixers and the wall-mounted models offer compatibility with many different washbasins.

Fittings for the shower

The shower fittings appear in a minimalist design and sophisticated in function. Design freedom included: thanks to the modular system, up to three water outlets can be combined. A cast hose and a dousing shower can easily be added to the overhead shower for wellness applications at home. The angular cover plate reflects the design language of the EDITION 11 shower fitting.

Impressive free-standing bath tub fitting

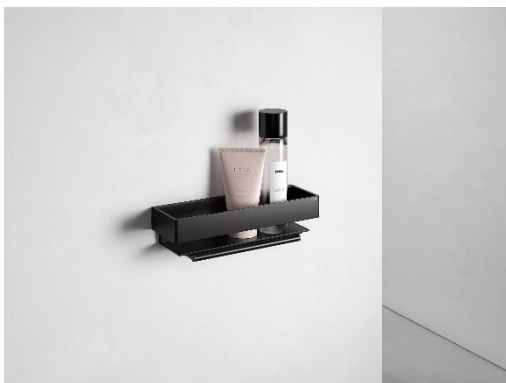

The free-standing bath fitting is really impressive. As a black matt solitaire, it has an effective appearance. The inlet and shower can be controlled via two separate levers and promise relaxing bath times.

At hand in the shower

A highlight of the EDITION 11 accessories is the beautifully shaped shower tray. This is available with or without a shower squeegee, also in deep black. The design is uncompromising with a big surface for standing things. So many care products have their own place. The shower tray can also be optionally mounted with a special adhesive set.

Accessories around the washbasin

EDITION 11 accessories bring high design standards to life. This can be seen right down to the smallest product. You can choose from a wide range of products to design the area around the washbasin. A special feature is always the straight-lined, angular profile. As always, versatile habits are guaranteed for by KEUCO, even if it's just to hang up one's towel.
